User Experiences

Here are some thoughts about Tabellion from attorneys who have used it to improve the efficiency of their practice:

“Taking appointed cases comes with the burden of many non-billable hours. The most time-consuming is interfacing with the AOC website to submit billing. I have used Tabellion software since 2021, and this wonderful app saves several hours on each appointed case. It streamlines the repetitive entries, makes mini-templates of sentences and phrases, and automatically fills in all those spreadsheet squares that – before Tabellion – required manual entry with a TAB key or a mouse. Tabellion is a great help for the criminal defense bar in reducing overhead and lessening the hours of unbilled work. There is a learning curve, but after a few hours and a few submissions, the process becomes second nature. As a solo practice lawyer, I require every technological shortcut I can find, and this is at the top of my list when I do appointed work to automate the tedious billing that comes with every appointed case.”

- Everette Parrish, Franklin Law PLC, Franklin, TN (BPR# 026518)

“Tabellion helps me keep up with billable time on the go and easily submit it to ACAP.”

- Joe James, Defense Attorney, former Prosecutor, 18th Judicial District
